+91 8105048734

Objective

To achieve suitable placement in well established organisation, in order to gain knowledge in the electronics and communication engineering field, where I can utilize my educational background and skills in the best possible manner and enable me to make positive contribution to the organisation.

Qualification

Bachelor of Engineering, ECE (6TH SEM)(2018-2022)

KLS Vishwanath Rao Deshpande Institute of Technology - Haliyal Current CGPA : 7.9

XII (Senior Secondary), SCIENCE (2016-2018)

Karnataka state board (Prerana pu college-Hubballi) : 80%

X (Secondary), State

V.S.Pillay English medium school-hubballi : 95.2%

Projects

IOT based light monitoring system for plants: The system is proposed to enable smart plantation system. The project aims monitoring the healthy growth of plants by plotting a graph of amount of sunlight required vs the amount of received by the plant.

IOT based light automation: Achieved building a part of home automation I,e controlling alight bulb using esp8266 via app.

Internship and Training

Startup Ace- Currently working as an web developer intern, Being trained on professional web designing and development, by working on real time projects based on HTML, CSS, bootstrap, and java script ,SQL, and basics of UI/UX designing.

Courses

Great learning : HTML, CSS ,C programming , Python basics.

Purple : Frontend fundamentals (HTML,CSS)

Bolt IOT : Internet of things

Technical skills

Softwares

Keli	Turbo c++
Arduino	GCC
Visual Studio	Microsoft packages
Pychram	solid edge
GIT	

Programming

C	Java script(basics)
Arduino	SQL(BASICS)
HTML	Bootstrap
PYTHON	
CSS
